EDUCATION

Georgia State University, Atlanta, USA

August 2023 - June 2025 (Anticipated)

M.Sc. in Computer Science

- Coursework: Advanced Machine Learning, Deep Learning, Advanced Text Processing & Large Language Models, Data Mining

EPITA, Paris, France

February - May 2022

Erasmus+ Exchange Program in Data Science & Analytics

- Coursework: Machine Learning with Python, Mathematics for Data Science, Foundations of Statistical Analysis & Machine Learning, Data Exploration & Preparation

Bilkent University, Ankara, Turkey

September 2017 - July 2023

B.Sc. in Computer Engineering

- Coursework: Discrete & Combinatorial Mathematics, Probability & Statistics for Engineers, Introduction to Statistics, Linear Algebra & Differential Equations, Algorithms

RESEARCH INTERESTS

Computational Social Science, Toxicity Analysis of LVLMs, Robustness & Safety of LLMs & LVLMs, LLMs in Healthcare

PUBLICATIONS

RESEARCH EXPERIENCE

Graduate Research Assistant (GRA)

August 2023 – Present

Georgia State University, Atlanta, GA

Working with [Prof. Ugur Kursuncu](#) on Large Language Models (LLMs) and Large Vision-Language Models (LVLMs) with applications to Online Toxicity and Healthcare Informatics:

- Working on *toxicity analysis* through *red teaming* to explore vulnerabilities of LVLMs, including *LLaVA*, *InstructBLIP*, *Qwen*, and *Fuyu*, against *persuasive prompting strategies* informed by social theories.
- Working on *hard/soft prompts*, *prompt engineering*, *fine-tuning*, and *knowledge graphs* to enhance the robustness and safety of LVLMs.
- Working on comprehensive evaluation of LLMs, including *Llama* and *GPT-3*, for mental health applications, focusing on metrics such as *sympathy*, *empathy*, *bias*, *toxicity*, *readability*, and *coherence*.

SKILLS

Programming Languages and Libraries: Python (NumPy, Scikit-learn, TensorFlow, PyTorch, Huggingface, Keras)

Deep Learning Frameworks: TensorFlow, PyTorch, Keras

Natural Language Processing (NLP): NLTK, SpaCy, Huggingface Transformers

Data Visualization: Matplotlib, Seaborn

Graph Neural Networks (GNNs): PyTorch Geometric, NetworkX

WORK EXPERIENCE

Candidate Engineer

February 2023 - August 2023

TUBITAK (The Scientific and Technological Research Council of Turkey) YTE, Ankara, Turkey

- Worked on a Product Tracking System using Java (Spring) and PostgreSQL as a 29-member team for the Turkish Medicines and Medical Devices Agency.

Summer Intern

August 2022 – September 2022

Azerion, Istanbul, Turkey

- Implemented a donation system for a Twitch-like streaming platform using JavaScript and React.
- Built a back-end for real-time peer-to-peer chat and video conferencing during online gameplay using Socket.io, WebRTC, Firebase, and Postman.

Summer Intern

June 2021 – July 2021

Netcad Software, Ankara, Turkey

- Implemented an autonomous system for autonomy-required sustainability systems using JavaScript, HTML and CSS.

EXTRACURRICULAR ACTIVITIES

- 2017 - 2023 — **IEEE Bilkent Student Branch.** Publicity & PR Coordinator (2018-2019), IAS Founding Chairman (2019), Vol – E Project Founding Coordinator (2019-2020), Executive Committee Treasurer (2020-2021), Counsellor (2022-2023).
- 2017 - 2022 — **Social Awareness Projects.** Intermediate in Turkish Sign Language. Organized events for “children who have a high level of hearing loss” and taught sign language to more than 100 college students.
- 2019 - 2020 — **IEEE Turkey Student Branches.** Publicity & Design YouTube Coordinator.

AWARDS AND ACHIEVEMENTS

- 2017 - 2023 — Bilkent University Comprehensive Scholarship: Full tuition waiver & stipend during the B.Sc. Program.
- 2023 — Ranked 18th in the Academic Personnel and Postgraduate Education Entrance Exam (ALES) among 150 thousand applicants in Turkey.
- 2017 — Ranked 934th in the Nationwide University Entrance Exam (LYS) among 2 million students
- 2017 — Ranked 1st in Yozgat Şehitler Science High School, GPA: 97.6/100
- 2015 — Outstanding Performance in AP Computer Science, North Oconee High School
- 2010 — National finalist in National Chess Tournament
